

ce.mnu.service.BoardService
Impl.modify

ce.mnu.service.BoardService
Impl.write

ce.mnu.mapper.BoardAttach
Mapper.insert

```
graph LR; A["ce.mnu.service.BoardService  
Impl.modify"] --> C["ce.mnu.mapper.BoardAttach  
Mapper.insert"]; B["ce.mnu.service.BoardService  
Impl.write"] --> C;
```

The diagram illustrates a mapping from two service methods to a single mapper method. On the left, there are two white rectangular boxes. The top box contains the text 'ce.mnu.service.BoardService Impl.modify' and the bottom box contains 'ce.mnu.service.BoardService Impl.write'. On the right, there is a gray rectangular box containing 'ce.mnu.mapper.BoardAttach Mapper.insert'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both service methods are mapped to the same mapper method.
