

ce.mnu.service.BoardService
Impl.modify

ce.mnu.service.BoardService
Impl.remove

ce.mnu.mapper.BoardAttach
Mapper.deleteAll

```
graph LR; A[ce.mnu.service.BoardServiceImpl.modify] --> C[ce.mnu.mapper.BoardAttachMapper.deleteAll]; B[ce.mnu.service.BoardServiceImpl.remove] --> C;
```

The diagram illustrates a dependency or mapping relationship. On the left, two separate boxes represent service methods: 'ce.mnu.service.BoardServiceImpl.modify' (top) and 'ce.mnu.service.BoardServiceImpl.remove' (bottom). On the right, a single box represents a mapper method: 'ce.mnu.mapper.BoardAttachMapper.deleteAll'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating that both service methods interact with or delegate to the same mapper method.
