

ce.mnu.service.ReplyService
Impl.getList

ce.mnu.service.ReplyService
Impl.getListPage

ce.mnu.mapper.ReplyMapper.get
ListWithPaging

```
graph LR; A[ce.mnu.service.ReplyServiceImpl.getList] --> C[ce.mnu.mapper.ReplyMapper.getListWithPaging]; B[ce.mnu.service.ReplyServiceImpl.getListPage] --> C;
```

The diagram illustrates a mapping from two service methods to a single mapper method. On the left, there are two white rectangular boxes. The top box contains the text 'ce.mnu.service.ReplyServiceImpl.getList' and the bottom box contains 'ce.mnu.service.ReplyServiceImpl.getListPage'. On the right, there is a gray rectangular box containing the text 'ce.mnu.mapper.ReplyMapper.getListWithPaging'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both service methods delegate the call to the same mapper method.
